How to Set Up a Windows 7 Laptop for Wireless Printing in the Business Library

1. Log into UWNet, the campus wireless network

2. Open Windows Explorer in the lower left corner

3. In the address line, type: \libprint.library.wisc.edu and hit enter

4. Enter the Network Username: printuser and Password: pr1nt.m3 (if this does not work, try the fully qualified username: libprint.library.wisc.edu\printuser)

5. From the list of printers, right click on BUS_B&W and click Connect...

6. The printer should begin installing

7. You may be prompted to install a printer driver. If so, click Install Driver

The printer should now be installed. Select BUS_B&W when printing in the Business Library.
